Course Description

The *Game Art Foundations* course will teach students how to develop a game from initial concept to playable demo. Using either the Unity or Unreal game engine, students will develop 3D environments, characters and produce animations to create their own interactive games. Focusing more on Art development, and using player feedback, students can implement game mechanics through a series of prototypes.

Benefits for students

- A nationally accredited Certificate in the Screen and Media Industry.
- Relevant training of competencies in this area, some competencies are transferable to other areas.
- Highly practical and hands on experience.
- Access to industry standard hardware and software.

Pre-Course Experiences/Pre-requisites

No pre-requisites to study this qualification, however, suitable for students:

- In year 11 and 12
- Good Computer skills
- Have a passion for being part of the Screen and Media Industry
