

As an ASC employee you will enjoy experiences that you simply won't find with any other organisation. You will work alongside our diverse, multi-skilled team who are dedicated to protecting Australia through the sustainment of Australia's Fleet of Collins Class Submarines. Your work will be valued and have true purpose.

Our apprentices work alongside experienced engineers and trade persons, gaining experience working in and around Australia's Collins class fleet of submarines. We are currently offering apprenticeship opportunities within our South and West Australian operations, across the following trade's disciplines for our 2021 intake program:

- Fabrication
- Mechanical
- Electrical

As an ASC Apprentice, your capabilities will be put to the test as you step up and think beyond what's possible. You will be encouraged to embrace diversity, work collaboratively and be empowered to develop solutions to demanding problems. You'll be surrounded by like-minded people who want to make a difference whilst being supported to develop and grow by:

- Building your technical skills through on the job learning.
- Working with some of our most talented industry leaders on Australia's most innovative and interesting projects.
- Developing your career through many new experiences with a stable and promising future.
- Excellent training programs and employee benefits

To be successful, you will have attained a Senior Secondary Certificate of Education with a focus on Maths, English, Science and Trade Studies or equivalent work experience in a relevant field. Candidates that have also completed or next to completing Certificate II Electro Technology or Metals & Engineering will be highly regarded.

You will need to be eligible to obtain a National Police Clearance and upon commencement Australian Defence Security Clearance. A valid Australian Drivers Licence is also an essential requirement to carry out this role successfully.

### **About our offer**

- Flexible working conditions and a work life balance
- Paid parental leave
- Annual flu vaccinations
- 4 weeks annual leave
- Salary sacrificing options
- Onsite cafeteria & parking

### **About ASC**

ASC is Australia's only established sovereign submarine capability, committed to delivery of the world's best submarine sustainment and capability support services for Australia's sovereign submarine program the Collins Class submarine fleet, whilst simultaneously supporting the newly delivered Hobart Class Air Warfare Destroyers and building Arafura Class Offshore Patrol Vessels.

With more than 1,300 employees based at two facilities in South Australia and Western Australia, ASC has naval engineering, design, construction, maintenance and project management resources unparalleled within Australia's defence industry.

At ASC we offer not only offer challenging and rewarding work on Australia's submarines and warships, we provide programs, initiatives and benefits that ensure our people reach their true potential.

After 30 years building Australia's submarine industrial base, ASC is now diversifying our business activities, forging new partnerships and initiatives and helping to deliver successful submarine programs in Australia, Europe and North America.

It's an exciting time to be joining Australia's dedicated submarine sustainment company.

ASC – Australian for submarines.

**This role requires a current National Police Clearance. Eligibility for an Australian Defence Security Clearance and to access protected US Defence Technology may be taken into account in assessing an applicant's suitability for this role.**

ASC is proud to be an Equal Employment Opportunities employer that provides an environment that encourages diversity and inclusion in all of its forms.

**For further inquiries in relation to the South Australian and Western Australian Apprenticeship Program please email the ASC Careers Inbox [careers@asc.com.au](mailto:careers@asc.com.au)**

ASC is home to Australia's largest and most highly skilled naval design and engineering workforce. From the construction and maintenance of Collins Class submarines to building the Hobart Class air warfare destroyers for the Royal Australian Navy, we are recognised as a world leader in our field. That's why we can offer some of the most rewarding careers!
